

Condominios El Cedro

Condominios El Cedro is a Gated community with private security 24 hours.

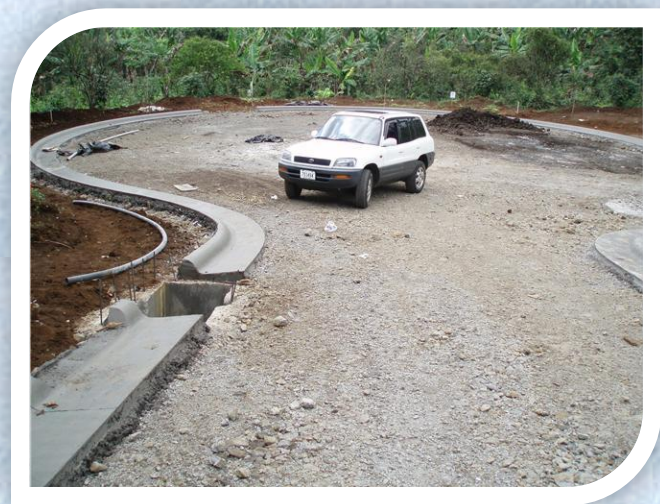

El Rosario de Naranjo, Alajuela is 25 minutes from the Airport Juan Santamaria. This location was chosen specifically for its excellent climate and beautiful scenery of the Central Valley.

This project has a total of 32 lots with an average lot size of approximately 1,000 m², a covered picnic area, pool, BBQ area, children's play area and a small forest preserve.

El Rosario de Naranjo is also a highly desirable location for international investors who require easy access to San Jose and the International Airport.

We went out of our way to preserve as much of the natural flora and fauna of Costa Rica as possible for our clients. Through a program offered by El ICE, we have also replanted a significant number of trees where land was disturbed near the creek during construction.

It is easy to find a property in Costa Rica. It is not always so easy to find properties in Costa Rica with ALL of the proper permits and approvals from the state and local governments. This project has all of the proper permits and all of the permits for the basic services required to receive a final permit to build on your lot.

CADG stands behind the quality of our developments and our professional consulting services. We offer assistance with the building and permitting of a house on lots purchased from our company. We also offer turn key services for those who would prefer to just select their lot and return to a new house.

Price \$ 55 per m2 for vacant lots until construction of the roads, common areas and entrance are complete. New prices will apply post completion of infrastructure.

Financing available.
